Shreya Venkatesh

User Experience Researcher

I'm a User Experience Researcher based in Melbourne. I am very passionate about creating solutions that enhance user experiences. I believe in a holistic approach, which includes analyzing human behaviour, problem-solving, and providing effective solutions that meet user requirements.

Experience

2018

CIE PES University | Summer Internship

Experience Designer and Graphic Designer

During my bachelor's degree, I worked with the Center for Innovation and Entrepreneurship to design the course materials and redesign the study space.

2022 - 2023 (3months)

Pride at Play | Summer Internship

Game Researcher and Exhibition Design

I worked under Dr Xavier Ho to help organise a Queer Game Exhibition for the Mardi Gras week in Sydney. I helped design the layout and helped research queer games to display.

Works

NINI

Tangible and embodied interaction Project

A project that intersected the digital and physical aspects of design.

A lighting solution that aims to help users fall asleep by forcing them to keep their phones away with led lights.

Discord Research

User testing Project

The objective of this project is to understand the first experience a user has with Discord, analyze the results, and develop suggestions.

revision

A digital solution for formative feedback

Revision focuses on the power of constructive formative feedback in education and show how this design solution will address the critical need to record it in the form of a journal.

Volunteering

MGA Volunteering

I have volunteered over 40 hours at the Monash Graduate Association organising and monitoring events around the Monash Campus

St.Kilad Moms, Clayton

I regularly volunteer at ' St.Kilad Mom' a NGO that works to recycle nursery product
